Publication List

23 publications in peer-reviewed journals with major contribution (11 as corresponding author), and 1 article submitted for publication. Co-author of more than 40 publications of the H.E.S.S. collaboration, 10 publications of the *Fermi*-LAT collaboration, 22 conference proceedings, and 4 white papers. According to NASA ADS, the publications have in total more than 4000 citations with an h index of 30. A publication list with all collaboration papers can be found on ORCID. Please note that, according to the policies of the scientific Collaborations of which I am a member, author lists of collaboration papers are always in alphabetical order. Corresponding author publications are marked with an asterisk (∗).

Peer Reviewed Publications

23: G. Chiaro et al. (including **M. Meyer**),
Identifying TeV Source Candidates among Fermi-LAT Unclassified Blazars,
Astrophys. J., Vol. 887, No. 1, 104, p. 104, 2019, arXiv: 1909.10834 [astro-ph.HE]

22: H. Abdalla et al. (H.E.S.S. Collaboration, including **M. Meyer**),
Constraints on the emission region of 3C 279 during strong flares in 2014 and 2015 through VHE γ-ray observations with H.E.S.S.,
A&A, Vol. 627, A159, A159, 2019, arXiv: 1906.04996 [astro-ph.HE]
